Sorry for sending this to everyone, I'm not sure who is interested in this note from Bruce, notifying us that the local Eugene paper will print a front page story about the Thursday meeting.

I just spoke to Sue Palmer at the Eugene Register Guard again. She will be attending the meeting Thursday night. The paper is also running a short front page article tomorrow (Tue) publicizing the meeting and recapping the issues. I will be quoted as saying (hopefully accurately) that PARC is an appropriate body to respond to the concerns of the community because of the expertise each PARC agency brings to the issue. Placing this on the front page may bring more media attention, but we should be fine as long as I stick to the talking points.

The article below mentions that EPA is participating. I'm presuming the representation is coming from the region. Who is attending?
